**C. Camp Sustainability Data.** For each camp facility where a resident or adventure program (that meets the NCAP definition) is operated, fill out a Camp Sustainability Data Sheet. This form will give a historic overview of a specific camp property and how it has performed for the four previous years. If numerous programs occur at this property, include them in the data.

**D. Camp Facilities Evaluation Tool.** For each camp facility where a resident or adventure program (that meets the NCAP definition) is operated, complete the baseline Camp Facilities Evaluation Tool (CFET). Include photos of the buildings and all information in a form that best fits the needs of the council.

**E. Continuous Camp Improvement Plan.** For each camp facility that is part of the authorization process, complete this structured approach of reviewing the areas of strength and areas for improvement, and build a plan for improvements to all areas. This is an annual process and should be developed as a continuous process that will be monitored and adjusted when needed. Develop benchmarks for achieving goals yearly.
