

Stephanie Tsuru, MLS
SheSpace Founder/Entrepreneur/Public Speaker

Stephanie Tsuru spent 25 years in the health care industry before receiving her MLS at Rice, which redefined and changed the trajectory of her life. Empowered by the strength and potential of women and disappointed by their frequent circumstances, she founded SheSpace a female focused work, meeting and programming space to support and bring all women together while mentoring both women and the girls of Houston. Drawing on more than 35 years of experience, she brings her wisdom and passion to a space which advances women's relationships, social and professional networks, and the power of the cohabitation effect.

She is passionate about philanthropic work, specifically literacy efforts co-founding Houston's state-of-the-art mobile library fleet. Among her accomplishments is recently being named a Greater Houston's Women's Chamber of Commerce Hall of Fame recipient and an ABC/Channel 13 Women of Distinction. An avid runner and defender of public spaces, she is co-chairing the Hermann Park Commons Capital Campaign. She recently indulged in her fondness of life-long learning by completing the Rice Leadership Accelerator.

Born into a family of Eagle Scouts, she is now married to an Eagle Scout who is currently a National Executive Board Member. Frank is also a Past President for the Sam Houston Area Council, so Stephanie is well versed in the power of Scouting and the importance of embracing change and leadership to continue moving the organization forward successfully.
